Looking at the Chinaman's garb the location of his pocket is rather a problem, but the powers seem determined to find it somehow.

SINCE the correspondents in Asia are much put to it for matter to write about they naturally lie under great difficulties.

SCIENTISTS still say men will be able to fly. It's to be hoped so. It's about the only way most people will ever have a chance to get up in the world.

THAT Maryland law on illiteracy is merely an indirect method of saying, so long as people know enough to read the papers the country is safe.

### SHOULD BE RE-APPOINTED.

The office of Secretary of the Territory is one of the most responsible in the Territory and while it is a Federal appointment and the appointee owes nothing to the people of the Territory for his appointment nor is he answerable to them for his actions, yet as a rule the appointing power is willing to make an appointment that would be acceptable to the people.

Hon. Chas. H. Akers, the present incumbent of the Secretary's office, is one among the Federal appointees, who has given universal satisfaction to the people of the Territory, and his re-appointment would also give universal satisfaction.

Mr. Akers is a steadfast Republican and probably the first public man in the Territory to come out squarely for, and stand by McKinley, and today he is probably the strongest and most popular man in his party in the Territory.

His politics is the only thing the GUARDIAN has against Mr. Akers. We are constitutionally opposed to Republicans holding office at all, but when we must have them, it is better to have one who is capable and is endorsed by the people, irrespective of politics. In his appointments no higher tribute could be paid the Territory by the President than the re-appointment of Mr. Akers as Territorial Secretary.

No Ohio man was ever known to dodge a chance to appear in public or to get his name in the papers. The Ohio women appear to be more modest. Governor Nash has been trying for some time to find a prominent Ohio woman to break the traditional bottle of champagne over the prow of the battleship Ohio when the ceremony of launching comes off, and with such ill success as to suggest the possibility that conscription may have to be resorted to. Miss Hanna has declined the honor, likewise, Grace McKinley and Senator Forker's daughters, and now all the daughters of Ohio are preparing to decline because they weren't asked in the first place. The perplexity of the Ohio Governor is doubtless very great, but if worst comes to worst rather than permit the Ohio to be launched without a name, he might do the christening act himself. The law requiring this act to be performed by a woman is an unwritten one. The outside world cannot help wondering, however, why the Ohio women should offer such a striking contrast to the men in their unwillingness to perform a public duty.

LAND grabbing continues in fashion among the great nations. Great Britain has grabbed the South African republics; Russia grabs Manchuria; Great Britain is not in a position to make a corresponding grab in that neighborhood, so she picks up a few islands in the Red Sea, just to keep her hand in. The Sultan objects, but nobody minds him. Our own beloved republic has been doing pretty well in the land grabbing business and cannot find fault with the exploits of others. Hawaii, the Philippines, Guam, Porto Rico—Cuba next. We are quite in the fashion. It is the good old rule, the simple plan, that they shall take who have the power and they shall keep who can. Germany and France have made their little grabs in Asia and are hoping for more. Japan would very much like a slice, but is doubtful of being allowed to keep it. If only we had kept out of the scramble we might do something for the protection of nations. But that opportunity has gone.

ONE of the good laws passed by the "Scrapping Twenty-First" is the one that compels owners of transient herds of goats and sheep to make affidavit before the nearest justice of the peace, within fifteen days after entering a county, of the number of their flocks. A law was passed by the 20th which divides the taxes on these transient herds between the counties in which they graze. The law passed will fix the number so that those who have avoided the payment of taxes on their flocks herebefore can do so no more.

ENGLAND declines to allow us to construct the Nicaragua canal without buying her off. It looks as if when one of these old world empires starts down hill it actually invites everybody in sight to give it a kick.

Catherine Hochderfer.  
The pupils who made the highest average in their studies during the month are:

Ninth grade, Maud Platt, 90 per cent; seventh grade, Leonard Green, 90 per cent; fourth grade, Clara McKenzie, 96 percent; high third grade, Edward Hochderfer, 95 percent; low third grade, Grace Todd, 95 percent; second grade, Lulu McKenzie, 97 percent; first grade, James Dubois, 95 percent; chart class, Gladys Spalding, 94 percent.

Room	Enrollment	No. of pupils	No. of tardies	No. of absences
Miss Caruthers' Room	25	14	2	9
Miss Tuttle's "	25	20	1	4
Mrs. Davis' "	25	21	2	2
Miss Cover's "	25	24	1	0

Total enrollment for March is 151; total number tardy 79; percent of attendance for whole school 94. Miss Caruthers' room secured the quarter holiday by having the smallest number of tardies.

The pupils throughout the school are doing excellent work. A number of pupils from Layton have come in for the last month's work as the Layton schools closed last Friday.

The Safford school will close April 26th.

### STRUCK BY A TRAIN.

An Old Railroad Attempts to Make a Coupling With Serious Results.

Monday morning at Fairbanks, J. H. Garner, a man fifty-five years of age attempted to make an air coupling on the N. M. & A. line, and was crushed between the cars. He fell across the track and one foot was severed from his body. He was taken to Benson immediately and a freight train conveyed the body to Tucson. He was not expected to live as he sustained severe internal injuries, says the Coconino Review.

The unfortunate victim was an old railroad man, but was not an employee of the railroad company at the time. He was en route from Benson to Nogales and when Fairbanks was reached he alighted from the caboose and volunteered to assist in some switching at that point. In doing so he attempted to couple the air on the cars standing on the main line when the engine with two more cars came off of the siding and backed into the train on the main line. Just before the cars came together, a brakeman called to him to "look out," but either he did not hear him or paid no attention to the warning. He was crushed about the chest and shoulders and one foot was severed from the body. He was hurried to the hospital in Tucson, but is not expected to live.

### WILL EDIT PAPER IN PRISON.

Convicted Indiana Publisher Will Not Abandon War on Political Foes.

George M. Ray, editor and publisher of the Shelbyville, Ind., Daily Democrat, who entered upon a penitentiary sentence Friday, will this week begin the editorial conduct of his newspaper as a convict in stripes. He is firm in the determination to continue the same line of policy in his newspaper as he had pursued prior to his conviction, and says he will continue war on his political foes, who, he charges, are responsible for his conviction on the charge of defrauding Shelby county on printing contracts.

Ray is under an indeterminate sentence of from two to fourteen years and his crusade against his republican foes, in view of the fact that the state government is republican, will mitigate lenient action by the courts or the exercise of executive clemency. Ray will perform manual toil in prison during the day and in the evening will prepare editorial matter for his paper in the solitude of his cell.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the use of the Eustachian Tube. When this tube gets inflamed you have a running ear or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; time cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.
